The plaintiff is requesting a settlement conference from the court, where a judge may facilitate discussions and potentially make recommendations to help both parties reach a resolution. Attached you'll find the calculated wage loss, loss benefits, and damages calculated from the plaintiff's check stub from 2016 and research methods.

A duplicate copy has been emailed to the defendants on April 1, 2025. The calculations show extensive monetary damages. The plaintiff would like to show good faith in resolving the complaint and an attempt to settle out of court. **Note: The mailing address for the plaintiff has changed to:**
